Constitutional Questions Coming Up In the Senate.

A WEEK DEVOTED TO SPEECHES.

It Is Simply the Rights of a Governor of a State to Fill a Vacancy in the United States Senate—Final Adjournment Not Expected For Over Two Weeks Yet.

WASHINGTON, March 27.—The indications are that the sessions of the senate will be more frequent and less perfunctory this week than they have been since it was convoked in the present extraordinary session. The senate will undertake discussion and perhaps the decision of one of the most important constitutional questions that has arisen in that body in late years; simply the right of a governor of a state to fill a vacancy in the United States senate which occurred when the legislature was in session.

Some senators advocate daily sittings from now on in order that a final adjournment be hastened. The sessions this week will be made interesting by the debate over the admissibility to membership in the senate of Messrs. Beckwith of Wyoming, Mantle of Montana, appointed by the governors of their respective states, the legislatures having failed to elect.

The majority report in a general way on the question will be on the proposition that in cases like the present the vacancies in the representation of the senate do not "happen" in the manner contemplated by the constitution when it authorizes appointments of senators by the governor. The other view is that it is the evident intent of the constitution that a state should always be represented by two senators and that a state should not be deprived of equal representation in the senate if a senator appears holding a reasonable claim to represent her.

According to this a vacancy exists when the legislature fails to elect which the governor is authorized to fill by appointment until the legislature again comes together. All the constitutional lawyers in the senate are expected to take part in the debate which will follow the taking up of the reports, and it is not unlikely that at least a week and perhaps 10 days will be required to give them a full opportunity to express their opinions prior to taking a vote. The outcome is in a little doubt, but the probabilities would seem to favor the adoption of the minority view of the case, as the Republicans are more solidly in favor of the governor's power of appointment than are the Democrats on the reverse of this proposition.

Such time during the week as is not devoted to the senatorial question will probably be largely spent in executive session confirming nominations and considering the question of the elective offices of the senate. The Democrats have failed to get the Republicans to agree to a compromise by which the Democrats would get a share of the salaries of these offices during the summer session. A number of the Democratic senators are not disposed to prolong the special session over these offices and the indications are, that after a trial to ascertain whether or not the Republicans are fully determined to resist strenuously the filling of these places at this time, the attempt will be abandoned in case it be seen that the Republicans will make a stubborn fight, as they assert they certainly will do.

The date of final adjournment is apparently at least two weeks off and it looks as if it would be about the 10th of April before the president signifies to the senate that he does not need to keep it in session any longer and dissolution of the special senate occurs.

TRAIN ROBBERY PLOT.

Four Men and One Woman Arrested For It.

St. Louis, March 27.—Confined in the cells at the Four Courts are four men and a woman, the principals in a most daring and complete train robbing conspiracy. They are: J. F. Gosney, alias Lowe, alias Huntington, alias Roland; H. Gehner, Louis Lutz, alias "Kindergarten"; Clark Goodwin, alias Charley; John Reed and Minnie Meyers, alias Lowe; Robert Weatherford, alias Leach, the fifth man, escaped from the city.

Chief Desmond received the first information of the plot Friday morning in the shape of a message, which conveyed word that a scheme was on foot to loot one of the outgoing trains Saturday night on the Missouri Pacific. Seventy patrolmen in plain clothes arrested the gang before they had an opportunity to put their plan into execution.

In the rooms of Minnie Meyers, in a disorderly house, were found the masks the men were to have worn, together with three sticks of dynamite and fuses and percussion caps. Gosney, Lutz and Goodwin said the scheme was to rob the Saturday night train on the Missouri Pacific, which takes out \$70,000 every Saturday night. If successful these operations were to be continued on a larger scale.

COLONEL SHEPARD'S REMAINS.

They Will Be Buried in the Moravian Cemetery.

NEW YORK, March 27.—It has been decided by the family that the funeral of the late Colonel Elliott F. Shepard, who died Friday afternoon from the effects of ether administered for a surgical operation, will take place Tuesday morning at 10 o'clock from the Fifth Avenue Presbyterian church. The Rev. Dr. John Hall, pastor of the church and lifelong friend of the

colonel, will officiate. The interment will be in the Moravian cemetery.

Dr. McBurney, the family physician, was seen yesterday at his home. He spoke feelingly on the matter of Colonel Shepard's death. "It was a very sad case," said Dr. McBurney. "In all my experience both as a medical student and as a practicing physician I have never seen one like it. Such instances of death under the effects of ether are of very rare medical record. Very little ether had been administered when the symptoms of choking and distress were observed by us. They are symptoms which are very common in cases of etherization. We see them in almost every other case in the hospitals. The labored breathing and signs of choking and nausea continued. Every effort was then used to revive the patient. No more ether was given. For a time he rallied and became conscious enough to ask about the result of the examination. He did not, however, reach a state of clear consciousness. He sank into unconsciousness again and died shortly after 4 o'clock. He must have been worrying about his condition and concealed it from us and his mental condition might explain the effect of the ether."

Among the callers at Dr. McBurney's office Saturday was Coroner Shultz. He had been asked by the police to investigate the case. The coroner simply asked Dr. McBurney some preliminary questions. Coroner Shultz seemed to think there was nothing unusual about the death. The certificate was signed by the board of health and gave the cause of death as the inhalation of ether.

Touching Tribute to Shepard's Memory.

CHICAGO, March 27.—Touching tributes to the memory of the late Colonel Elliott F. Shepard of the New York Mail and Express were recorded at a special meeting of the Chicago Herald chapel of the International Typographical union held yesterday afternoon in the composing room of that paper.

Addresses eulogistic of the dead editor as a friend of organized labor and a warm supporter of the union were made by several members of the chapel, and James W. Scott, publisher of The Herald, spoke at length upon the life and services to the journalistic profession of the deceased.

When Mr. Shepard was in Chicago last fall he invited delegations from each paper to be his guests in New York. He had planned to bear all the expenses. Arrangements had been made for the party to leave this city May 10. Printers from other chapels attended, and resolutions of sympathy and respect were passed.

HAYTI INVADED.

Dominicans Do It, and a Battle Is Fought, With Result Not Stated.

KINGSTON, Jamaica, March 27.—Another long warfare between President Hipolyte's government and the factions opposed to his rule is now threatened. Insurgents have crossed from the Dominican frontier into Hayti, and a battle has already been fought.

This new movement is likely to cause trouble with San Domingo, and possibly war, should the present insurrection be quelled. A protracted struggle is the present outlook, owing to the mountainous and unsettled condition of the country. The battle is said to have been a decisive one, but the result was not stated.

As the news comes from Port-au-Prince, the seat of President Hipolyte's government, the inference desired to be conveyed is that the authorities were victorious. This statement must be taken with considerable allowance, because the same dispatch which brings the above news adds that more troops are being hurried to the frontier.

Whatever may be the outcome of the present conflict, it can only add to the troubles of the unhappy island. If the insurgents win, the load of debt incurred by the war, which would certainly prove a large one in that case, will be a heavy burden for the poor Haytians. If the government should prove victorious, there will undoubtedly follow a demand for indemnity on San Domingo, and, in case of refusal, another bloody and expensive war might ensue.

GREAT DAY AMONG THE MORMONS.

On April 6 the Great \$4,000,000 Temple Will Be Dedicated.

SALT LAKE CITY, March 27.—Throughout Utah Saturday the Mormons held special meetings of fasting and prayer, and all business became suspended for the day. The occasion was preliminary to the final dedication of the great temple, which will take place April 6, the 53d anniversary of the organization of the Mormon church. The temple has been in course of construction nearly 40 years, and has cost nearly \$4,000,000.

Its completion and dedication will form a solemn occasion in the history of the church, and all members are enjoined to purge themselves from iniquity, extend mutual forgiveness and confess their faults to one another before they can properly enter the sacred edifice. On April 6 it is estimated that 100,000 Mormons will visit this city, and the dedication exercises will be repeated daily for 10 days.

Vessel and Crew Lost.

DELAWARE BREAKWATER, Pa., March 27.—The Equator from Norfolk, for Philadelphia, with railroad ties aboard in tow of the tug Ivanhoe, went to pieces 15 miles east of Fenwick's island during a gale on Thursday night and all hands were lost.

Prominent Editor Gone.

CHAMBERSBURG, Pa., March 27.—Edward Curridon died suddenly yesterday, aged 57. He was at different times editor of the Fitchburg News, Lockhaven Republican and Erie Dispatch, and assistant editor of the Washington (D. C.) Republican.

OPPOSED TO UNIONS.

The Policy of the Western Union Telegraph Company.

TRYING TO CREATE A STRIKE.

The Dissatisfied Men Will Then Be Treated in the Same Legal Manner as the Ann Arbor Strikers—New Orleans Streetcar Troubles Settled—Labor News From Other Places.

TOLEDO, March 27.—General Superintendent Corbett of the Western Union Telegraph company dropped into the city Saturday afternoon very quietly. He had all the commercial telegraphers in the service here called before him, and, after some questioning, submitted an affidavit to them for their signatures, which required them to say they did not belong to any secret telegraphers' association, never had so belonged, never would while in the company's employ, and in case they did belong to one would withdraw at once. He did not say what the penalty would be if they refused.

Not one of the men would sign the affidavit. They expect that the company is trying to get those who are dissatisfied to strike and then apply the same legal treatment to the case that has been administered in the Ann Arbor cases. The story of Corbett's visit here came out last evening, and he at once left on an eastbound Lake Shore train. So far as known no railway telegraphers were approached.

The Ann Arbor Strike.

TOLEDO, March 27.—The strike situation is the quiet test it has been since it started, none of the great labor leaders have yet arrived. The Order of Railway Conductors held a meeting yesterday afternoon to take whatever action might be necessary regarding the report that Conductor Renshaw was discharged from the company's service without sufficient or just cause. It was found that he was not a member of the order, having made application sometime ago and then withdrawing it upon the advice of the Ashleys. It was also discovered that there were only three members of the order who are employed on the Ann Arbor. It is unlikely therefore that the strike will extend to the trainmen.

Strikers Return to Work.

WACO, Tex., March 27.—A committee appointed on the part of the brakemen of the Texas Central railway, who went out in a body on a strike last Wednesday, arrived in Waco yesterday afternoon and laid the grievance of the strikers before General Manager Hamilton and Superintendent McWilliams. After discussion a compromise was reached by which all the strikers returned to work and the strike was declared off. The settlement appears permanent.

New Orleans Strike Given Up.

NEW ORLEANS, March 27.—The street car strike on the Carrollton fizzled completely yesterday. At 10 o'clock all the cars were running without interruption, and as the union men saw that they were being shut out, the strike was declared off. When the men applied for their old jobs only eight, who had formerly been mule drivers, were taken back.

SOLDIERS AT THE FAIR.

Major Bickford Thinks No Encampment of Troops Can Be Held.

CHICAGO, March 27.—Major Bickford of the United States government board was at Jackson park Thursday morning. The board is especially interested in the location of a military encampment in Washington park, which the park commissioners do not intend to permit, fearing that it will ruin the grounds, which lie one mile west of Jackson park.

"We have done all that was possible to secure the consent of the park board to our proposed encampment," said the major, "but it does not seem to have done a particle of good. We have withdrawn the cavalry feature, but even with that feature removed, the park board shows little inclination to grant our request. If we do not get the east meadow I fear the encampment scheme will have to be given up."

TO IMPEACH JUDGE DUBOSE.

Tennessee Legislature Orders His Trial on Sundry Charges.

NASHVILLE, March 27.—By a vote of 85 to 5, the house Saturday ordered the impeachment of Judge Julius J. Dubose, on various and sundry charges. When the resolution was brought up, one by one the Dubose faction gave in and voted for the trial. Even Ralph Davis voted yea. James H. Cummings of Warren county was the first Dubose man to speak in favor of impeachment. The chief point the house struggled over was that Dubose dismissed a juror because he would not convict a prisoner. It is impossible to say when the trial will take place. Judge Dubose, who is here, begged his followers to stand by him. Many here believe that he will resign and not trouble the state with the expense of a trial.

Will Die From Eating Coffee.

YOUNGSTOWN, O., March 27.—A young woman residing here, who is a pronounced blonde, became dissatisfied with her complexion and concluded that she wanted to become a brunette. She began eating roasted coffee, and in a short time was able to eat a half pound a day. Her skin began to turn brown, and relatives, learning the cause, attempted to break off the coffee diet, but without success. She now masticates a pound a day. Her health is failing rapidly.

BARON ANDRADA DEAD.

The End Comes Suddenly to a Brazilian Envoy.

WASHINGTON, March 27.—Baron de Andrada, special envoy from Brazil to the United States, was stricken with paralysis Friday night at the National theater and died at 9:15 Saturday in his apartments. He was a noted man in Brazil, and was in this country on a special mission to gather facts relating to the boundary line dispute between Brazil and Argentine Republic.

Baron Andrada was 70 years of age, and had 42 years represented Brazil in a diplomatic capacity, his first service being an attaché of the Brazilian legation in Washington. He was secretary of the legation at London for 10 years, and minister to Portugal, Switzerland, Austria and Rome and to several South American countries. At the time he was selected for the mission that brought him to the United States he was stationed at Rome, and was considered a confidante of the pope.

At the death were the Brazilian minister, Senor Mendonca, the first secretary of legation, a relative of Minister Mendonca, and the charge d'affaires of the Argentine legation. The other members of the special commission had left the room a few moments before dissolution occurred, not thinking the end was so near.

The funeral services will be held at St. Matthew's church tomorrow.

Minister Mendonca has cabled the news of Baron Andrada's death to his government, and will await orders as to the final disposition of the remains.

Baron Andrada was a widower, his wife having died in Portugal. His children are now in Switzerland.

ARGENTINA AND BRAZIL.

The Imprisonment of a Consul May Lead to Blows.

VALPARAISO, March 27.—New cause for trouble between Brazil and Argentina has been given in Porto Alegre, Rio Grande do Sul. A correspondent in Rio Janeiro telegraphs that the vice consul of Argentina at Porto Alegre has been arrested and thrown into jail by order of Governor Castilho.

It is believed that this incident will cause a suspension of the diplomatic relations between Argentina and Brazil. In view of the bad feeling which has for sometime existed between the two countries, war between them is not improbable.

Trouble Between Paraguay and Brazil.

WASHINGTON, March 27.—Paraguay has broken off her diplomatic relations with Brazil. The pretext for this action was the assault of a colonel of the Brazilian army who has been making violent statements against the Paraguayan government. So grave is the offense considered by Paraguay that the minister of that government in Montevideo has been directed to hasten to Rio Janeiro and demand an explanation. His demand will include a request for a disavowal of the responsibility of the officer's offensive language and redress for his acts in a pecuniary way.

PEARY AND HIS MEN.

They Have All Had Experience Under the North Star.

PHILADELPHIA, March 27.—Lieutenant Peary, the Arctic explorer, has chosen four members of the coming expedition to north Greenland. They are F. A. Cook of New York city, Samuel W. Enriken of West Chester, Pa.; Eyvart Astrup, now at Christiania, Norway, and Matthew Henson of Philadelphia. These men, Lieutenant Peary says, will form a magnificent nucleus for the next party. All of them have visited Greenland before. Three of them—Cook, Astrup and Henson—accompanied Peary's north Greenland expedition of 1891, while Enriken was a member of the Peary relief expedition of last summer.

The executive committee of the Geographical club, which recently decided to associate itself with Lieutenant Peary in his proposed Arctic expedition, has issued a letter asking for contributions to defray the expenses of the trip.

KILLED BY CARS.

Two Men Ground to Pieces at Bethlehem, Pennsylvania.

BETHLEHEM, March 27.—John Hegley, a brakeman on the North Pennsylvania road while trying to board his train Saturday morning, fell under the wheels and was ground to pieces. Hegley was 21 years old and resided in Philadelphia.

James Winters, a section hand on the Delaware, Lackawanna and Western railroad, was struck by a passenger train a few minutes afterward and almost instantly killed. He stepped out of the way of a coal train in front of a passenger train. He was about 40 years of age.

Noted Character Frozen to Death.

CHEYENNE, March 27.—James Monahan, "the Educated Section Hand," wandered off into the hills near Clearmont, this state, after a spree, and was frozen to death. The body was found last evening, after a search of a week. Monahan was a Wyoming character. He was educated for the priesthood, but fell through drink. At the time of his disappearance he had started for home with a party and insisted on returning alone for one more drink. He was quite a gambler and at one time had an establishment of his own, with bank rolls aggregating \$50,000. Most of this was lost in the east on horse races.

An Indian Civil War Imminent.

PARIS, Tex., March 27.—Word has been received from Antlers, Choctaw nation, that bloodshed is expected between rival Choctaw factions. Armed Indians are rapidly gathering, and it is doubtful if conflict can be avoided.

A RELIGIOUS CRANK.

King Humbert of Italy Is Assaulted by One

WHILE DRIVING IN THE STREETS.

A Stone Thrown at His Carriage but No One Hurt—The Man Pronounced Insane—Anarchist Mathieu, Ravachol's Accomplice, Captured—Minister Lincoln Resigns—Other Foreign News.

ROME, March 27.—It has been discovered that Luigi Berardi, the religious fanatic who assaulted King Humbert Saturday near the Villa Borghese, has always been suffering from mental derangement and that some members of his family have occasionally shown symptoms of the same disorder.

The king went as usual for a drive in the neighborhood of the villa, accompanied only by one aide-de-camp. Just as the carriage was passing the front of the villa a fellow, who looked like a workman, drew from the inside of his coat a stone wrapped up in paper and dashed it against the royal carriage. The king stopped the carriage and personally arrested the perpetrator of the outrage. Then the police inspector in charge of the villa ran to the spot and took the man into custody. The prisoner struggled and refused to go to the police station, and the king continued his drive.

On arriving at the police station the prisoner gave his name as Luigi Berardi. He said that he wanted to insult the king for not being reconciled to the pope. He had traveled half around the world and had been a long time in America, from whence he had but lately returned. He said: "I am a fervent Catholic. I want to establish missions to China to redeem the slaves. The people in America took me for a madman, although I was in good health enough, but I am ready to suffer martyrdom for the sake of my religion."

The authorities have ascertained that he was sentenced to imprisonment for seven years for murder committed a number of years ago. In 1882 he was released from prison and emigrated to America, the authorities thinking they had got rid of him forever, but he returned recently to Rome.

Two physicians have examined Berardi and have pronounced him insane.

Ravachol's Accomplice Captured.

PARIS, March 27.—The local police in St. Michael, department of the Aisne, have caught the anarchist Mathieu, suspected of having been Ravachol's accomplice in causing the explosions of a year ago, and of having been implicated with him in the wrecking of the Cafe Vercy, in the Rue Magent. Mathieu had robbed a peasant's hut near St. Michael and the police searched for him without knowing of his identity with the notorious anarchist. They found him hidden in a loft.

When he was stripped for examination the police found in his shoes papers which showed that he was closely connected with the plots of the anarchists in Paris. A comparison of his appearance with the official description of Mathieu left no room for doubt that he was the man for whom the Paris police have been looking ever since the arrest of his colleague Ravachol.

Blondin May Not Be Imprisoned.

PARIS, March 27.—Mr. Blondin, sentenced on March 21 to two years' imprisonment for having conducted the negotiations for the bribery of M. Balthaut by Charles De Lesseps, is suffering from incipient paralysis. His physicians say that imprisonment would kill him, and urged that he be sent to a private asylum.

Minister Lincoln Resigns.

LONDON, March 27.—Minister Lincoln has placed his resignation at the disposal of President Cleveland. Much pressure, it is said, has been used to retain the son of the martyr president near the court of St. James. Mr. Lincoln, has, however, made up his mind to go back to his law practice in Chicago.

Anarchists Acquitted.

ROME, March 27.—At Modena the jury acquitted 24 anarchists, who had been on trial for taking part in an anarchist riot at Villa San Michele, October last. The riot was a desperate affair and several persons were killed. The acquittal of the accused has caused great indignation.

Thread Mills Burned.

LONDON, March 27.—One of the Rivet Copnays thread mills at Stockport in Lancashire was destroyed by fire Sunday morning probably caused by an explosion of gas. The damage amounts to £50,000.

Ed Smith Meets Corbett.

PITTSBURG, March 27.—Ed Smith of Denver and Jim Corbett had a talk Saturday regarding a fight for the championship of the world. Smith said he was aware that professional courtesy prevented his challenge receiving financial attention until after his (Corbett's) fight with Mitchell is decided or declared off, but he wanted the first chance at the champion after that battle had been settled. Corbett said he would be only too willing to give Smith the first chance. This was satisfactory to Smith and the meeting ended.

Don't Want the Cherokee Strip Opened.

GUTHRIE, O. T., March 27.—A prominent cattleman just in from Texas says a combination of cattlemen has sent delegates to Tablequah to induce the Cherokee council not to ratify the strip bill. They will do everything possible to prevent the opening of the strip this spring as they have 300,000 cattle ready to ship in there to pasture during the spring and summer.

WEATHER INDICATIONS.
Generally fair weather, winds shifting to easterly; slightly warmer.

The State officials at Frankfort should study Kentucky's seal. "United we stand, divided we fall."

"I do not want any demagogue politician at the head of the Pension Office." Such is a remark made by President Cleveland last Friday. The people everywhere will applaud the sentiment. The country has had enough of the Raunus, the Tanners and their ilk.

Kentucky's Tobacco Display.
Professor Wilbur R. Smith, the newly appointed World's Fair Commissioner, has named as his assistant on tobacco display Mr. J. D. Walker, of the Blue Grass Tobacco Company of Lexington. Mr. Walker will start to work right away and do all he can to make Kentucky's tobacco display ahead of any ever shown. The tobacco growers throughout the State should give him their hearty co-operation. He formerly lived at Brooksville, and is quite well known in Mason and Bracken.

Judge J. H. Hazelrigg.
Says the Mt. Sterling Sentinel-Democrat: "It is gratifying to all the people, and especially those who aided in securing him the position, that Judge Hazelrigg is winning golden opinions on the Appellate bench. All who have come in contact with him at Frankfort are pleased with him. He is working hard, and is surely making his way to the top."

"One of his fellow Judges the other day remarked: 'He has the ability and opportunity, and there is no reason why he should not make a great Judge. I believe he will.'"

The Collectorship.
A report was widespread at Frankfort Friday evening that State Senator James H. Mulligan, of Lexington, had been appointed Collector of Internal Revenue over Colonel Thomas Shelby, who was recommended by Congressman W. C. P. Breckinridge. The story was not confirmed but found many believers. It is said that Secretary Carlisle favors Judge Mulligan, whereas Congressman Breckinridge is making the fight of his life for Shelby. A special says should Mulligan get the appointment he will stud the district with his political allies and stack the cards to succeed Breckinridge in the National House of Representatives.

Maysville's Educational Institutions.
The educational institutions of Maysville are to be represented in the great National exhibition at Chicago. Hayswood Seminary has made and forwarded a showing of its work, of which it may well be proud and of which none of the citizens of Maysville need be ashamed, as a representation of the educational advantages of their city. The art class under the direction of its teacher Miss Hanstein, the music class under the direction of Miss Spilman and all the regular classes, even to map drawing and examination papers by the primary department, were represented. Altogether the exhibit will be highly creditable to the pupils, the teachers and the city of Maysville.

The Editor's Duties.
A newspaper man has no business to seek office. It is his business to try and get an office for the other fellow; to sound the praises of the candidate and keep quiet his own feelings; to whoop her up for his man, and let his man forget all about him when he is elected; to defend his candidate against the unjust attacks of the opposition, and see whatever favors he has to bestow goes to the other fellow. It is his business to boom the city for all it is worth, month after month, and then see \$100 worth of printing go out of the city because 10 cents can be saved in doing so. It is the business of the newspaper to give every enterprise a frequent "send off," and then catch stool because he had failed to record the fact that some prominent citizen had his delivery wagon painted. To subscribe liberally to every public, charitable and church entertainment, advertise them for nothing, pay his own way to everything, and then be called prejudiced and mean-spirited because a column is not devoted to that particular affair. Do you wonder that there are so many cranks in the newspaper business?—Exchange.

GEORGETOWN recently completed a good system of waterworks and put in an electric fire alarm. It then called upon the local insurance men for a promised reduction of 10 cent. in rates. To the chagrin of property owners, the city was informed that it had offset the improvements by selling the fire engine in order to depend on direct pressure from the waterworks, and that instead of a decrease there would probably be an increase of rates.

MAYSVILLE

Far Ahead of Its Class Among Western Cities, Population Considered.

Our Many Advantages--What Edward Everett Said--A Word to Manufacturers.

The C. and O. lately issued a handsomely illustrated pamphlet descriptive of this historic route to the seaboard, and the BULLETIN has been favored with a copy of the work by Mr. W. W. Wikoff, passenger agent at this point. The publishers were liberally patronized by many of our leading business men. Only two cities on the route in Kentucky are mentioned, and Maysville is one of them. As may be seen the managers of the C. and O. speak in the strongest terms of this city, and of the many advantages it possesses for manufacturers.

"When its population is considered," says the author of this work, "Maysville is far ahead of its class among Western cities. It has the finest street car system, the best electric and gas plants, the best water works, and the best sites for manufacturing establishments of any city in the West of even five times its population. Its railroad facilities place it in direct communication with Cincinnati and the West, and with New York, the Atlantic seaboard and the Southeastern States. It also has ample facilities for reaching the North and South. The rate of taxation is low, school privileges unsurpassed, four large banking institutions, and the richest section of agricultural country surrounding it to be found in America, Mason County being celebrated for the high class of tobacco, wheat, corn and stock it produces. Maysville has for many years been an important factor in the commerce of Kentucky and the South. Among the large manufacturing establishments which have given it prominence being the immense plow works of James H. Hall & Co., whose manufactures have reached every portion of the South and West. Among the other articles of manufacture which have gained prominence throughout the country are the Limestone and Old Gold brands of flours. The Limestone Cigar Factory and the distilleries of Maysville have also assisted in advertising its importance as a manufacturing city. It is hardly fair, however, to the general enterprise of Maysville manufacturers to specify any particular ones, as there is an indication of thrift on all sides, there seeming to be a common object among them all to excel in their special lines. Maysville's sobriquet is the 'City Among the Hills.' Its situation is exceedingly picturesque. It occupies a large area of level country, hemmed in by the graceful Ohio river hills. Back of the hills is a rolling country of great fertility. The great statesman, Edward Everett, upon a visit to one of the hill-top residences overlooking Maysville, remarked upon the beauty of the vista, which he thought excelled anything he had seen in his travels either in this country or Europe, and said that it was worth a trip across the Atlantic to stand upon the Kentucky hills and view the meandering Ohio as it passes through the highly cultivated bottom lands in Ohio and Kentucky, with the picturesque city nestling under the hills to add life to the scene. Manufacturers of all kinds should turn their attention to Maysville. More money abounds in its back country than will be found in the same area of agricultural country in America, by reason of which there is a large home market for almost all commodities, added to which are unsurpassed facilities offered by its important railroad lines to the great markets of the world."

A CANNING factory organized at Augusta, Ga., last week with a capital of \$10,000 will furnish employment for 200 hands.

REV. C. S. LUCAS recently closed a four weeks meeting at Hazelwood Avenue Church in Pittsburg, with sixty-one conversions. His work in Allegheny and Pittsburg has resulted in nearly 100 additions since January 1. He is engaged at present in a big revival at Shady Avenue Church, Pittsburg. He and his family are enjoying good health, and he is greatly pleased with his new field of labor.

Is a late number of the Manufacturers' Record of Baltimore, is a letter from C. B. Warrand, a chemist of Savannah, stating that there is in operation in that city a manufactory of crude rubber from cotton-seed oil. The product so closely resembles the natural product that it deceives experts and is now produced in a commercial way and shipped to Boston, where it is used in the manufacture of various articles in every-day use. The process, which is secret, is very simple, and only requires 15 per cent. of the true rubber to produce an article that will in time prove to be an economical substitute for the South American tree gum.

SAYS the Mt. Olivet Tribune-Democrat: "History repeats itself. Rev. Riffe had a similar experience Tuesday, of last week, while fishing, to that of F. M. Young in April, 1889. In other words, his feet slipped and he fell into the creek."

IT'S still a question whether Hawaii will be annexed or not, but it was settled long ago that Ballenger's is the best place in Maysville to buy jewelry. His stock is always complete, embracing the latest novelties, and his goods are guaranteed.

CAPTAIN HILL, the present Tipstaff of the Court of Appeals, will succeed to the office of Sergeant, made vacant by the death of G. Alex. Robertson, and it is probable that J. W. Johnson, of Henderson, will succeed to the place of Tipstaff.

L. G. MARSHAL, aged sixty-three, a native of this county, died suddenly a few days ago at his home in Clay City, Ill., of paralysis. His wife and three little children were visiting her sister Mrs. Robert T. Wilson at Bethel, Bath County, when the sad news was received.

MISS KATIE VAUGHT, daughter of Rev. J. O. A. Vaught, has been selected by Millersburg Female College to prepare a paper for the Educational exhibit at the World's Fair. Miss Vaught made a number of friends in Maysville while visiting Mr. and Mrs. John W. Boulden last summer.

A SENSATION was created at Vanceburg last week by Miss Lizzie Lewis having a warrant issued for Jeff Cooper, charging him with being the father of her babe. Cooper is a merchant of that county, is married and well connected. The girl is not yet sixteen years old, and had been a servant in the Cooper home. She accuses him of forcibly ruining her when she was only thirteen years of age.

NO SOONER does the State Treasurer reply to some of the insinuations in Governor Brown's recent letter than all the Brown organs jump onto Mr. Hale. "The howl from Hale," "Hale's yawp," etc., is the way they refer to Mr. Hale's letter. Gentlemen, Mr. Hale has as much right to do some talking in this matter as the Governor, and you are not helping His Excellency any by jumping onto every one who dares to say anything against him.

WANTS HER BOY.

A Suit Over a Child Creating Much Interest at Vanceburg--A Family Skeleton Exposed.

A special from Vanceburg says that a suit for the possession of a child has created much interest on account of the prominence of some of the parties, and the spice of romance connected with the case.

About thirteen years ago a young lady of Vanceburg named Dora Johnston, met with a sad accident, the result of which was the birth of a boy. The credit for the little one's paternity was accorded to Al Watkins, who was connected with one of the best families of Eastern Kentucky. After the birth of the little one, Miss Dora escaped from the humiliation of her disgrace by leaving for parts unknown. She resolved to go her way and sin no more. She finally settled at Lexington, and there she met a wealthy young gentleman named J. H. Shultz. The latter fell in love with her and, despite the fact that she explained her former mistake, he made her his wife.

The woman had given her infant, soon after its birth, to an estimable lady of Vanceburg, Mrs. Robert Wright. The latter has cared for the child ever since, and the boy is now a handsome lad of thirteen. A few days ago Mrs. Wright was surprised at a visit from a stylishly dressed lady, who soon informed her that she was the mother of the boy. She told Mrs. Wright she wished to take the boy to a store and buy him a suit of clothes. The foster-mother allowed him to go, but, getting suspicious, followed a few minutes later. When she (Mrs. Wright) arrived at the public part of the city, she learned that Mrs. Shultz, assisted by her husband, was hurrying the boy to the depot. Mrs. Wright sought a lawyer, and, accompanied by her attorney, she reached the depot just as Shultz and his wife were forcing the boy on the train. The proceedings were stopped, and now comes a suit for the legal possession of the child. Much sympathy is expressed for Mrs. Wright, who has had so much trouble in bringing up the boy, and whom she has learned to love as if he were her own.

OF the four fourth-class postmasters appointed in Kentucky last Friday, Congressman Paynter named two of them. They are J. Herbert Reid, of Greenup, vice Wm. Stevens, removed, and J. M. Hefflin, of Tilton, in place of J. L. Overley, resigned.

SAYS the Augusta Chronicle: "The suggestion made during the last Teachers Institute to the effect that Bracken and Mason have a joint Institute at Germantown, sometime during August, will, in all probability, be carried out. The Superintendent of Mason has given his consent."

WESTERN pork packers handled 145,000 hogs the past week, compared with 125,000 the preceding week, and 185,000 for corresponding period last year. From March 1 the total is 425,000 against 555,000 a year ago--decrease, 130,000 hogs. The average price for prominent markets is about the same as a week ago.

"GENESIS" and "Geology" are the subjects of two lectures Rev. J. B. Briney will deliver at the Christian Church on Sunday and Monday nights, April 9th and 10th. These lectures will be rendered additionally interesting and instructive by stereopticon views, illustrating the subjects. The public invited. No charge for admission, but a collection will be taken.

A SLICK-TONGUED rascal caught several of Ironton's good citizen the past month. He was selling back-numbers of the leading magazines (forty-eight in all) for one dollar. The books would be delivered free of charge if the buyers paid the one dollar down. They bit, and gave up the dollar. The books haven't been received yet. The swindler is fishing for suckers in other localities.

THE Whitley County Advocate says: "It is reported that recently a Knox County young lady was teaching a class in spelling, when the word 'husband' was written on the black-board. None of the children could pronounce it, and in order to help them out, the teacher asked: 'What would I have if I should get married?' The response was very prompt, but it was not what she had expected, and she blushed such a brilliant red that the sun light faded."

CLOVERPORT will be represented at the World's Fair by four artistic productions, the work of students of the High School, which will go in the Kentucky educational display. They are an allegorical picture, "Temple of Our Liberties," by Miss Forrest Moorman, aged thirteen; the Pythagorean proposition, with demonstration, by Lorenzo Camp, aged fourteen; a drawing of the osseous and muscular systems, by Miss Laura Yeager, aged eighteen, and a map of Kentucky, by Miss Rosa A. Ryan, aged thirteen. All are done in colors and said to be really artistic.

RETRENCHMENT OF EXPENDITURES.

Such Will Be the Policy of the Present Administration.

WASHINGTON, March 27.—The retrenchment of expenditures is to be made one of the policies of this administration, and wherever it is found that employees are not needed their services will be dispensed with and the money turned into the treasury. It is expected that in this way a considerable annual saving will be effected before the close of the administration.

Secretary Morton has already reduced the payroll of the agricultural department about \$125,000 a year. Secretary Smith will, as soon as he can find time to attend to something else than persons seeking office, make a number of reductions. Saturday Secretary Carlisle dismissed eight Chinese emigrant inspectors who had little work to do, and this will probably be followed up by other discharges.

WHEELMEN IN POLITICS.

A New Feature in Municipal Campaigning in St. Louis.

St. Louis, March 27.—St. Louis has 3,800 wheelmen who are making themselves felt in the municipal campaign now in progress. Most of these cyclists who are young business men, not especially interested in partisan politics are now wearing on their coats little white buttons bearing in black letters the words, "Good streets." The buttons represent a unique political movement. In December at a meeting of the wheelmen, Chief Consul Robert Holm was ordered to appoint a chairman, who was to select a committee of 10 men evenly divided as to national politics, and prepare plans to take the "good streets" idea into the city campaign.

Consul Holm made Albert C. Davis chairman, and he selected a committee, which wrote to all the candidates on both the leading tickets, asking for an expression of their views on the subject of clean and good streets. Some candidates ignored the communications, and some replied satisfactorily. The committee has had several meetings, and has canvassed the claims of candidates. They have endorsed Mr. Malbridge, the Republican candidate for mayor. "We are going to have no partisan politics in this," said Chairman Davis. "We are trying to enlist the co-operation of all citizens who are interested in securing good streets in the city."

At last a medical work that tells the causes, describes the effects, points the remedy. This is scientifically the most valuable, artistically the most beautiful, medical book that has appeared for years. 96 pages, every page bearing a half-tone illustration in tints. Some of the subjects treated are Nervous Debility, Impotency, Sterility, Development, Varicocele, The Husband, Those Intending Marriage, etc. Every man who would know the grand truths, the plain facts, the old secrets, and the new discoveries of medical science as applied to married life, who would atone for past follies and avoid future pitfalls, should write for this wonderful little book. It will be sent free, under seal. Address the publishers, Erie Medical Co., Buffalo, N. Y.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osgood,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. KINCHLOE,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
